

01 About

Hormuud University was established in 2010 by Hormuud Telecommunication Company. The primary objective behind its establishment was multifaceted, with the foremost goal being to produce qualified international and local professionals capable of keeping pace with modern technologies and competing effectively in the global markets. Other major objective is to fill the gap in the specialized academic fields that has not yet been introduced in our nation.

02 Mission

Hormuud university is committed to provide an academic excellence and conducive learning environment as well as career development and work ethics, so as to enhance creativity, research and suitable solutions to social problems locally and internationally.

03 Vision

Hormuud university aims to be a world-class University, recognized for excellence in teaching and learning, relevant research, and community service.

04 Why us ?

As part of its commitment to academic excellence, innovation, and community service, Hormuud University provides a learning environment that empowers students to succeed in both national and global contexts.

Hormuud University places strong emphasis on research, particularly applied researches that respond to real societal and developmental needs. Through a culture of inquiry and evidence-based practice, we contribute to national development and global knowledge.
